

ECHANGES RHONE-ALPES AUVERGNE PALESTINE (ERAP)

A new association (law 1901) is born in « Rhône-Alpes »: ERAP

Cultural diversity is the common heritage of mankind and at the heart of major international issues. Individuals and peoples can express and share with others their ideas and values. This desire of cultural diversity is at the origin of ERAP, for promoting and honouring Palestinian culture.

Why create « ERAP » ?

To promote and develop cultural exchanges and to launch bridges between schools, universities, economics, sports and tourism from Rhône-Alpes and from Palestine.

To serve as a regional information platform on Palestine between the different actors of the cities of the Region. To promote synergy and coherence of the various exchanges..

Who are we? :

As initiators of the association, we are activists, elected officials, economic actors, artists, trainers, ... we are motivated by the development of cultural exchanges with Palestine.

We are currently working on the preparation of a Palestinian film festival in the Rhône-Alpes region.

We invite you:

- *To tell us about your current projects; we can promote them.*
- *To receive ERAP information.*
- *To adhere for joining us.*
